- Address, Telephone and Email

### **Serving the Community**

Lee Housing Association is a local organisation, serving the community. We work in partnership with other organisations, in particular the London Borough of Enfield.

The Association welcomes comment and involvement both from its residents and the wider community. We believe that local people can make a valuable contribution towards setting our future objectives.

### **History**

We were established in the 1960's by officers and students from Middlesex Polytechnic (now University) to provide good accommodation at affordable rents for students.

Our homes have been acquired or built in three ways:

- With grant funding from the Housing Corporation and the London Borough of Enfield to build and rehabilitate properties.
- By entering into agreements to manage property owned by others
- By buying properties with our own money

The first major scheme, Swan House, was opened in 1979.

We expanded steadily, and by 1984 it became necessary to appoint a manager and full-time staff.

We have now extended our client base to include all single people of 18 or over who are in housing need and have connections in the Enfield area.

### **Equal Opportunities and Diversity**

We are committed to ensuring that our residents, people applying to us for housing or employment and the people who work for us are treated fairly. We will not discriminate against people for reasons such as race, religion, gender, disability, sexuality, age or cultural background, and we value of the diversity that exists amongst our residents and staff.
